

VICTORIA PETUKHOVA

Full Stack Developer (Junior)

698 99 08 72 · viktoriia0205199@gmail.com · Pallejà, Barcelona

github.com/ViktoriiaPet · viktoriia0205199.github.io/portafolio

PROFESSIONAL PROFILE

Motivated Full Stack Developer with hands-on experience in JavaScript, TypeScript, React, Node.js, and REST API development. Passionate about building clean, well-documented, and maintainable code for web applications. Experienced in agile team environments, Git workflows, and cross-functional collaboration. Quick learner with a strong attention to detail. Immediately available and eager to contribute to innovative software development teams.

TECHNICAL SKILLS

Frontend	JavaScript (ES6+), TypeScript, React, HTML5, CSS3
Backend	Node.js, Express, NestJS, REST API development
Databases	PostgreSQL, MongoDB, SQL
Testing	Vitest, React Testing Library (RTL), unit testing
DevOps & Tools	Docker, Git, GitHub, monorepo management, Husky
Design	Figma, Pixso
Build Tools	Vite
Methodologies	Agile, code review, pull request workflows, CI/CD basics

PROJECTS

NexusCore — REST API

- Built a REST API with Express.js and PostgreSQL featuring authentication, user management, input validation, and full CRUD operations
- Documented endpoints with Swagger for clear, interactive API reference

Live demo (Swagger): crud-api-5ydv.onrender.com/api-docs | **GitHub:** github.com/ViktoriiaPet/crud-api

REST Client App — React, Remix & SSR

- Collaborated in a team to build a Postman-style REST client using React, Remix, and server-side rendering (SSR)
- Implemented modern React patterns including Suspense and lazy loading for optimized performance

GitHub: github.com/ViktoriiaPet/rest-client-app

ACADEMIC PROJECT EXPERIENCE

Full Stack Developer — Technical Lead (Practical Training) | CIFO Violeta, Barcelona Sep 2025 – Dec 2025

Full-stack social events web application for Spain (team of 12 developers)

- Led technical coordination of a 12-person cross-functional development team, delivering a full-stack web application using React and NestJS
- Designed and managed a monorepo architecture (frontend + backend), defining Git workflows, pull request standards, and commit conventions
- Implemented automation scripts and Git hooks (Husky) to enforce code quality; resolved integration conflicts across branches
- Conducted technical presentations and mentored team members on software development best practices and agile workflows

Project: github.com/IFCD0022-CIFO-Violeta-2025/fullstack-JS-final-project

PROFESSIONAL EXPERIENCE

Content Moderation Specialist | [Avito \(OLX\)](#) Feb 2021 – May 2022

- Reviewed and moderated user-generated content in accordance with company regulations and compliance standards
- Identified and escalated fraudulent activity patterns in user communications, contributing to platform safety
- Managed account suspensions for serious policy violations, maintaining platform integrity

HR & Recruitment Technician | [Sirius LLC](#) Jun 2019 – Sep 2019

- Managed personnel contract administration and maintained employee records
- Coordinated end-to-end recruitment processes including sourcing, interviewing, and onboarding
- Conducted workforce planning meetings with department managers to assess staffing needs

EDUCATION & TRAINING

Full Stack Web Development (270 hrs) 2025

CIFO Violeta, Barcelona — presential bootcamp

Frontend Development & Advanced React 2025

EPAM RS School — online

Cybersecurity Architecture & Operations 2024

Fundación Telefónica — online certification

Social Studies 2021 – 2022

European University

LANGUAGES

Russian	Native
Spanish	B1/B2 – Able to handle daily communications
English	B1/B2 — Professional working proficiency
Catalan	A2 — Certificate Pal·lejà / CPNL
